

Investment is a long-term endeavor; one cannot expect to invest today and achieve a 100% return by the end of the day.

Instead, successful investing is reflected in the accumulation of returns through today's investment combined with the passage of time and regular contributions to the investment account, resulting in income growth of anywhere from 100% to 1000%.

Furthermore, reasonable investment is also a crucial strategy for coping with market inflation. If funds are not effectively put to work, they may lose value invisibly.

For instance, if a year ago you could purchase a quality property for \$10,000, inflation might mean you now need to pay over \$20,000 for the same property.

Without investment, asset depreciation could endure as much as 50%.

In the investment process, we should choose diversified income schemes, combined with the various policies provided by the team to enhance daily profits.

VIP Level	Team size
VIP 1	5—30
VIP 2	31—100
VIP 3	101—200
VIP 4	201—350
VIP 5	350—500

By applying the principle of compound interest and effectively utilizing account funds, we can achieve long-term profit growth over time.

For example, we can increase our account balance through bonuses earned by inviting new members and additional reimbursement fees.

**Personal Invite New Members
Additional benefit Policy**

New member deposit amount	Additional benefit for referral
300-499 USDT	5 USDT
500-999 USDT	15 USDT
1000-1999 USDT	30 USDT
2000-4999 USDT	90 USDT
5000 USDT-N	200 USDT

PS:

- 1.As long as new users sign up through your link, you can receive 2 USDT.
- 2.The benefit is only available for individuals inviting new members. If you need reimbursement for seminars, team dinners, or other events, please seek prior authorization.
- 3.It is strictly prohibited for individuals to illegally exploit ST policies for arbitrage activities. If identified by AI, all bonuses will be removed, and a permanent ban will be imposed on participating in any ST projects.

Meanwhile, the bonus policy offered by the ST team is equally exciting.

Through calculations, we can clearly see that by using this platform, everyone can earn substantial bonuses by inviting new members.

This is not just a simple income comparison; it is a subversion of traditional work models.

Imagine if we could invite one new member each day; with a deposit of \$500, we would earn a 7% bonus, which amounts to \$35.

Adding the additional signal bonus (\$7) and expense reimbursement (\$15), our daily income could reach \$57.

This is significantly easier compared to working long hours in traditional jobs.

one investment, lifetime profit!

Bonus for inviting new members **Calculation Method for VIP Level Transaction Volume Rewards**

First deposit	Newcomers 3%	Inviter 7%	VIP Level	Team size	Rebate ratio
300 USDT	9 USDT	21 USDT	VIP 1	5—30	0.30%
500 USDT	15 USDT	35 USDT	VIP 2	31—100	0.50%
1000 USDT	30 USDT	70 USDT	VIP 3	101—200	1.00%
5000 USDT	150 USDT	350 USDT	VIP 4	201—350	1.20%
10000 USDT	300 USDT	700 USDT	VIP 5	351—500	1.50%
			VIP 6	501—900	1.90%
			VIP 7	901—1500	2.30%
			VIP 8	1501—3500	2.80%
			VIP 9	3501—N	3.30%

Success is the beginning of changing your destiny. When it opens the door to success for you, we must work hard to seize it. Keep striving and fighting.

Referral for Bonus signal

New Member First Deposit	New Member	Referrer
300 USDT	3 USDT	3 USDT
500 USDT	7 USDT	7 USDT
1000 USDT	15 USDT	15 USDT
1500 USDT	22 USDT	22 USDT
2000 USDT	30 USDT	30 USDT
5000 USDT	70 USDT	70 USDT
10000 USDT	150 USDT	150 USDT

Success is the beginning of changing your destiny. When it opens the door to success for you, we must work hard to seize it. Keep striving and fighting.

Invite five new users to upgrade for VIP bonuses

Number of new users	Minimum initial deposit amount	Completion Bonus
5—people	500 USDT	60 USDT
5—people	800 USDT	150 USDT
5—people	1500 USDT	350 USDT
5—people	3500 USDT	600 USDT

Believe in yourself, you can achieve any goal your heart desires!

Note: After becoming a VIP, the team's trading volume rebate will be paid every 10 days. (On the 1st, 11th, and 21st of each month). The more team members and the higher the VIP level, the greater rebates will be.

With the continuous development of the market and the gradual increase in our team members, we have ushered in a brand new opportunity period.

Today, I hope everyone can listen carefully to our bonus policy for the ST team, as well as the upcoming lecturer training policies.

The in-depth implementation of these policies will lay a more solid foundation for the future of our team.

First of all, in the face of an increasingly complex market environment and the insufficient understanding of projects among members, the ST team has decided to respond proactively, especially to achieve our strategic goals for 2025.

We have hired a group of professional lecturers. These lecturers will be responsible for holding offline meetings at various operation centers and cafes to promote systematic training, helping team members deepen their understanding of investment knowledge.

This training is not only an enhancement of the capabilities of team members but also an improvement in the overall professional level of the team.

This is a crucial step toward our higher goals, especially in realizing our vision for 2025, where more friends can earn over \$10,000 a month, making training particularly vital.

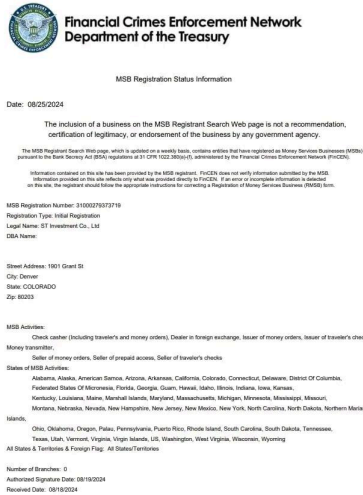

As we all know, the success of the team relies on effective training and guidance.

Our lecturers are not just knowledge transmitters; they are also valuable assistants to team leaders in solving training issues.

By organizing workshops and systematic training sessions, the lecturers will help enhance the cohesion and professional skills of the team, thus improving our understanding of the project.

To ensure the smooth operation of the lecturer team, our recruitment will end on November 24, after which the lecturers will begin their management and training work.

All users should make an effort to understand ST's

policies.

- 1) AI will assess user contributions to determine if users can increase their principal or suggest that they withdraw a portion of their funds.

The evaluation is based on user referrals of new users + chat records with ST + the user's activity level in ST groups.

- 2) ST will provide each user with one waiver for default penalties incurred due to insufficient trading volume. We hope users will use this wisely, ideally only in emergencies.

The policy also serves as the best assurance for new users wanting to withdraw and leave ST if they are unsatisfied after experiencing ST.

- 3) The fund company established through CBEX's margin and ST's own funds is meant for users.

If you apply for a withdrawal from CBEX and are denied, you can take a screenshot and share it in the group, then contact ST to use the fund for compensation.

Ofc, I don't believe CBEX would behave this way, as it is currently in its IPO phase and wants to succeed in becoming the next Binance, OKX, or Bybit.

Negative information is not welcome.

This is also why neither ST nor CBEX will promote online.

Not every user can maintain a rational mindset and the courage to face their mistakes; thus, they may shift the blame onto CBEX or ST, leading to the spread of rumours.

- ④ Each user should thoughtfully engage with ST rather than simply believing what others say. At the very least, you should ask the other party to provide evidence.

Resorting to cheap slurs or attacks is unacceptable.

Every ST user has a duty to protect the ST project.

- ⑤ As Christmas approaches, more scammers are emerging.

They may impersonate my Telegram account or Mr. Harold's account, or even create fake CBEX websites.

Just remember, genuine ST will only ask you for your CBEX ID to verify if you meet the requirements for any bonuses.

We will not ask for any passwords or ask you to send money to any addresses.

It's crucial to recognise the official CBEX website:

Furthermore, making regular deposits can effectively boost our account balance, driving daily profit growth.

ST Team Manager:

Opportunities for profit from seminars

If you can organize seminars, you can not only earn an organizer bonus but also gain additional bonuses as a speaker. For instance, if you organize one seminar a day, totaling 30 events in a month, the bonuses you could earn as both the organizer and speaker are as follows:

- 50 attendees: \$70 (organizer) + \$30 (speaker) = \$100 x 30 events = \$3000
- 100 attendees: \$150 (organizer) + \$100 (speaker) = \$250 x 30 events = \$7500
- 200 attendees: \$250 (organizer) + \$100 (speaker) = \$350 x 30 events = \$10500
- 300 attendees: \$450 (organizer) + \$100 (speaker) = \$550 x 30 events = \$16500
- 500 attendees: \$600 (organizer) + \$100 (speaker) = \$700 x 30 events = \$21000

The earning potential is evident, providing unlimited opportunities for those who are actively engaged.

In modern society, wealth appreciation and financial freedom have become the goals many people strive for.

However, achieving this goal is not easy; it requires a systematic mindset and clear strategies.

Today, we will delve into how to realize wealth appreciation and financial freedom through wise investments.

The first step to achieving financial freedom is to set clear financial goals.

Whether it's buying a car in the short term or planning for retirement in the long term, having clear goals can help you stay motivated and provide direction for subsequent investment decisions.

An ideal financial goal should possess five characteristics: specificity, measurability, achievability, relevance, and time limitation.

In the ST team, these goals are equally important.

From the moment we join the team, we should clarify our own goals and direction.

For example, setting a goal to build your own team and be promoted to a leader within a month; or aiming to achieve goals such as buying a house and a car within six months or a year.

Additionally, setting daily goals is also an effective practice, such as aiming to earn a specific bonus today by inviting new members or generating extra income from new member registrations.

Successful investing relies on a deep understanding of financial knowledge and the market.

One can enhance their financial intelligence through team-organized meetings, attending investment training courses, or following the teachings of experienced team members.

It is also crucial to pay attention to economic conditions, market trends, and changes in financial instruments.

For instance, we can actively seek potential members through marketing, advertising, and regularly hold seminars inviting experienced speakers to share insights.

**Personal Invite New Members
Additional benefit Policy**

New member deposit amount	Additional benefit for referral
300-499 USDT	5 USDT
500-999 USDT	15 USDT
1000-1999 USDT	30 USDT
2000-4999 USDT	90 USDT
5000 USDT-N	200 USDT

PS:

- 1.As long as new users sign up through your link, you can receive 2 USDT.
- 2.The benefit is only available for individuals inviting new members. If you need reimbursement for seminars, team dinners, or other events, please seek prior authorization.
- 3.It is strictly prohibited for individuals to illegally exploit ST policies for arbitrage activities. If identified by AI, all bonuses will be removed, and a permanent ban will be imposed on participating in any ST projects.

How to quickly form our own five-person team to achieve the rank of VIP leader and earn transaction volume rebates, which are distributed every ten days.

This goal is not only the foundation for our team's development, but also a key to enhancing each individual's income. I hope everyone pays close attention and takes notes during our sharing session.

Forming a five-person team is a basic requirement for successfully advancing to the VIP leader position.

Just like every finger on our hand is indispensable, each member of the five-person team is crucial to the team's operation.

Without any one member, the team's functioning will no longer be coordinated, and efficiency will be affected.

More importantly, the transaction volume bonuses are at the heart of the three income streams we receive each month.

Only through the joint efforts and seamless collaboration of team members can we achieve higher transaction volumes and thus obtain more bonuses.

This also means that actively forming and managing a five-person team is a clear foundational goal for each of us within the ST team.

In the process of forming our five-person team, we can leverage each other's strengths and compensate for weaknesses.

Like gears in a machine, different members can complement each other in team endeavors, making operations more efficient.

This collaboration not only enhances our work efficiency but also stimulates the team's creativity, allowing everyone to find their place within the team.

For instance, if one member has extensive experience in market promotion while another excels at communicating with clients, they can work together to achieve better results.

This complementary relationship is key to the success of forming a five-person team.

Please refrain from clicking on advertisements for other exchanges that appear in the group, as some members have already fallen victim to scams.

If you receive messages from strangers promoting other exchanges or projects, please block and blacklist them promptly to protect your assets !

In the ST team, we are all cooperative partners, and only through our collective efforts can we drive the development of the team, leading to continuous profit growth.

I hope everyone can support each other throughout this process, make progress together, and achieve a win-win scenario for both individuals and the team!

The journey to wealth accumulation and financial freedom is long and filled with challenges.

However, through clear goal-setting, knowledge enhancement, prudent choices, and effective mindset management, anyone can achieve this goal.

Investment is not an overnight endeavor; continuous learning and practice will guide you toward successful wealth growth.

Achieving financial freedom depends not only on investment but also on sound financial management.

Setting a reasonable budget, closely monitoring income and expenses, and minimizing unnecessary expenditures are essential.

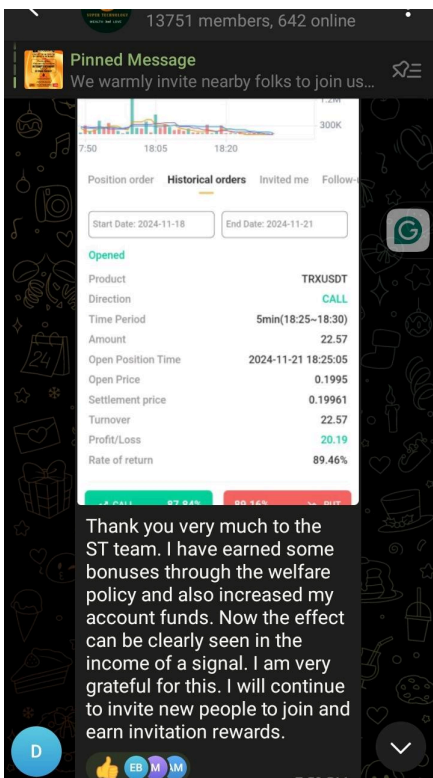

One should treat the regular amount deposited into the investment account as a fixed expense, fostering good habits of saving and investing.

Successful investing is not only a matter of technical skills and knowledge but also a test of mindset and psychological resilience. In the face of market volatility, a calm and rational attitude is crucial.

One must avoid making irrational decisions driven by panic, maintaining confidence in one's investment direction and goals, as well as belief in the chosen investment projects, to better seize opportunities.

Our bonus system includes various forms:

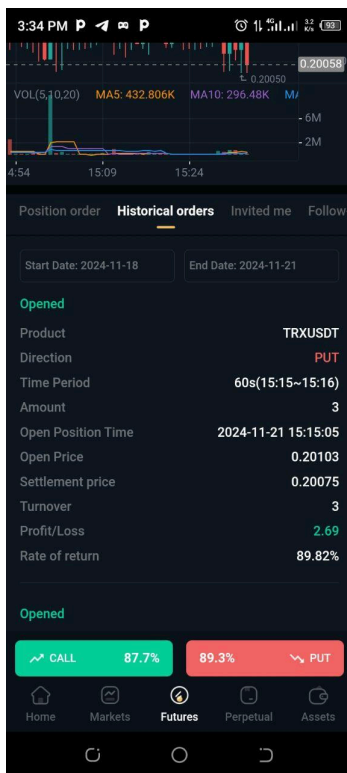

First, you need to understand that ST offers absolutely fair opportunities for everyone.

Your task is quite simple: share with at least 5 users to become a VIP and enjoy even more benefits.

After going through the ST courses, you'll be able to pass on more efficient methods to your users, guiding them to also acquire five users so they can become VIPs like yourself.

1. Invitation Bonus: You will receive a certain reward for successfully inviting a new member.
2. Extra Bonus Signals: This is an additional reward granted by the system after you invite new members.
3. Expense Reimbursement: Expenses related to accommodation and meals during the invitation process can be reimbursed.
4. Completion Bonus After Forming a Five-Person Team: Once you successfully achieve the goal of forming a team of five members, you will receive an additional completion bonus.
5. VIP Promotion Bonus: After being promoted to junior VIP, you will start receiving team trading volume bonuses every ten days.

In an ideal scenario, if you have 5 members, each with a deposit of \$1,000, their daily trading volume would amount to $5 * 20 = \$100$.

Over the span of ten days, this trading volume would total \$1,000, enabling you to earn 0.3%, resulting in \$30.

For a month, that amounts to \$90.

Now, if all 5 of your members become VIPs and each of them brings in 5 users, each with a deposit of \$1,000, your team would grow to 30 members.

Consequently, your rebate would then be $\$90 * 6 = \540 .

Right ?

Certainly, this analysis is based on an ideal scenario, as the AI evaluates rebates based on the increase in new users your team has seen over the last ten days and the calculations of transaction volume.

The more users that haven't contributed for over 30 days and the longer they stay inactive, the lower your rebate will be.

You and I are the same, really.

We don't believe that users who haven't contributed in over 30 days have any issues with their abilities.

It's more likely that they simply don't understand ST well enough, or they don't know how to share it with new users.

You should first let them know what they can get by sharing with new users.

Alright ?

VIP Level	Team size	Rebate ratio
VIP 1	5—30	0.30%
VIP 2	31—100	0.50%
VIP 3	101—200	1.00%
VIP 4	201—350	1.20%
VIP 5	351—500	1.60%
VIP 6	501—900	1.90%
VIP 7	901—1600	2.30%
VIP 8	1601—3500	2.80%
VIP 9	3501—N	3.30%

I feel incredibly excited to be able to enjoy such a wonderful life, and it feels unbelievable to me. Ever since I joined the ST team, my life has changed significantly.

Now, I have successfully built my own team, and I can earn about \$106a day consistently, with this income continuing to grow. I am very grateful to the ST team and my upline for
